## — Art Market in Berlin

There are many good reasons to buy and collect art: the love of art, the fostering of talent or the belief in art as an investment. With more than 400 galleries and 8,000 artists Berlin is a hotspot for international contemporary art. The Berlin art scene is exciting, at the same time, constantly in a state of flux and, therefore, challenging and often difficult to predict. Discovering young sculptors or purchasing already established painters in the art market, can be a fascinating activity and an excellent investment. The evaluation of an art work depends, however, on many factors. Make appropriate decisions is not always easy. The amount of invested capital for an art acquisition is not always decisive; it may depend on selection and an early discovery.
