

# STUDIOVISITS

Artists' studios are places of work, inspiration and innovation. With the initiative StudioVisits, founded in 2014, I enable you to get to know artists and their work in a personal conversation. You get an intimate insight into the production of art and a look behind the scenes. You learn about the artists and their work in person. Due to my long experience in the art world I can offer you new perspectives into current trends in the art scene.

## — Monthly StudioVisits

Once a month, you have the opportunity to attend a moderated artists' talk in the studio. On the occasion of an exhibition, a residency or a publication, you get insights into the current work methods as well as working conditions and get to know a part of the young, international and diverse art scene in Berlin.

## — Private StudioVisits

Individuals, groups or companies can book StudioVisits exclusively. Each studio visit is tailored to your wishes in advance: Are you interested in painting, photography or installations? Do you want to get to know more established artists' studios or do you prefer an organized tour through the art academies? The individually designed studio visits take 1–1.5 hours and can be booked for German or English speaking groups up to 15 people. I will be happy to advise you.
